Shellstock tag log

One line per container. When it is empty, write the last date served on the tag and here, then keep the tag at least 90 days, filed in date order.

Date received	Supplier (dealer)	Dealer cert. no.	Species	Harvest date	Harvest area	Qty	Tag checked	Last date sold / served	Keep tag until (+90 days)	Filed (init.)
03/02	*Example Shellfish Co.*	*XX-000-SS*	*Oysters*	*02/27*	*Example Bay, Area 4*	*100 ct*	*Yes*	*03/05*	*06/03*	*AB*

The shaded first row is a made-up example. Every name and number in it is fictional.

Count 90 days from the last date sold or served. When in doubt, keep it longer.

Dates in between: add 90 days on a calendar, or let Tellina count it for you when you photograph the tag.

In a leap year, spans that cross February 29 end a day sooner, so this table keeps the tag one extra day. That is fine.

A guide, not legal advice. Rules vary by state and health department; confirm yours. Keep the original tags.
